

GSA-2: Introduction to Globus Toolkit 3.0 for System Administrators
25 October 2007, 1300 – 1600 hours

Objective of Course:

To provide grid administrators the capability to setup and maintain a Globus Grid resource and how to integrate it with the National Grid Pilot Platform (NGPP).

Course Outline:

- The Globus Toolkit 3.0
- How to setup a Globus Grid Node
 - Basic software required
 - Setting up the CA (if required)
 - Setting up Globus Toolkit
 - Additional software (e.g. NWS, MyProxy, Condor-G)
- Integration with NGPP

Audience: Grid Administrators

Instruction Type: Workshop

Pre-requisites for this workshop :

- a) Must have attended Course GSA-1: From Cluster to Grid, or
- b) Have relevant experience in the area covered by the course. The applicant will be required to describe his relevant experience(s), which will be accessed by the NGCC team and will be handled on a case by case basis.
- c) Must bring along a **laptop with a minimum configuration of a Pentium III, and 512MB RAM.**

No Show Fee: A charge of \$50 will be levied if the attendee does not turn up for the course, or cancels his application for the course within 24 hours from the start time.

This is a FREE course and registration is on a first-come-first-served basis as seats are limited.

Date : 25 October 2007
Time : 1300 to 1600 hours
Venue : The Big One, 21 Heng Mui Keng Terrace, Singapore 119613
